Your versatile tasks

- Conception and further development of the processes mapped in the ERP system, in close coordination with the specialist departments and central IT
- Administration of the ERP system and support of the key users
- Helpdesk and training of internal users as well as preparation of training documents
- Configuration and maintenance of the existing interfaces for the connection of third-party systems (e.g. PDM, DMS, scanner, etc.)

Your qualifications

- A completed apprenticeship with IT/ ERP focus or a comparable qualification, completed studies in the field of business informatics would be an advantage
- At least 3-4 years of relevant professional experience with ERP systems.
- Basic understanding of commercial processes in a manufacturing company desirable
- Good knowledge of English

We are

As the world market leader in the field of quality measurement and testing systems, we have been developing innovative quality measurement and testing solutions for the raw material producing and processing plastics industry for more than 30 years. Research and development are our core competencies. More than 100 experts work for us at our main location in Witten.

Are you interested? We would welcome your comprehensive online application, including an indication of your desired salary and earliest starting date

Of course, you can expect absolute discretion. We look forward to hearing from you!
