Your varied responsibilities

- You provide support in the mechanical and electrical construction of quality measurement systems
- You carry out the commissioning and servicing of quality measurement systems worldwide
- You analyse malfunctions in existing devices or systems and carry out corresponding diagnoses or repairs
- You carry out preparations for, and concluding tasks on, assignments, including qualified reports and the documentation of technical changes

Your qualifications

- Successfully completed apprenticeship in an electrotechnical field, preferably industrial mechatronics or operating electronics; motivated career entrants welcome
- Good knowledge of PC technology
- Good knowledge of Windows 10
- Good knowledge of network technology
- Additional knowledge in the area of control technology welcome, e.g. PLC and fieldbus systems
- Independent, well-structured work method, openness to constantly changing challenges on the basis of broad technical understanding
- Strong communication skills and the ability to work in a team
- Good command of spoken and written English

We are

As the world market leader in the field of quality measurement and testing systems, we have been developing innovative quality measurement and testing solutions for the raw material manufacturing and processing plastics industry for more than 30 years. Research & development are our core competences. More than 100 experts work for us at our headquarters in Witten, Germany.

Are you interested? We would welcome your comprehensive online application, including an indication of your desired salary and earliest starting date.

Your application will of course be treated with absolute discretion. We look forward to hearing from you!
